WE TOLD THE TRUTH

And Here Is Our Proof---Capt. J. B. White Only Takes Out His Second Papers One Day Before the Election.

Just before the late election THE SENTINEL published to the voters of this district the fact of Capt. J. B. White's ineligibility to the office of congressman because he was not a citizen of the United States and had never applied for his second papers, or made his final declaration endowing him with all the rights and privileges of a free born American.

For thus honestly endeavoring to enlighten the people, THE SENTINEL was accused almost of bigotry, the truth of its assertions was questioned by the republican press and public speakers, Capt. J. B. White evaded the issue, able lawyers passed upon the matter "as it was presented to the undersigned," and to cap the climax an "indignation" meeting was called to protest against the audacity of any person questioning Capt. White's ineligibility. THE SENTINEL time and again asked for proof of Captain White's citizenship and some one would firmly arise and temporarily sweep aside the constitution, just for the sake of argument. This journal is enterprising and inasmuch as Captain White and his friends have hesitated about the matter, we give to the world proof of the gentleman's admission to full citizenship in the Kosciusko county court, Nov. 1, 1886, just one day before the last election. Read and ponder on it.

Order Book 36, Page 528. Kosciusko Circuit court:

Monday Morning, Nov. 1, 1886.

The Kosciusko circuit court met pursuant to adjournment. Present the same judge and officers of court as on Tuesday last.

Personally appeared in open court James B. White, a native of ——— and shows to the court by his declaration under oath and satisfactory proof by the examination of two competent witnesses that he has resided in the United States and has continued to reside therein for more than five years, and in the state of Indiana one year, his attachment to the principles of the constitution of the United States and favorable disposition to the good order and happiness of the same and likewise his behavior as a man of good moral character.

Thereupon James B. White was duly sworn in open court and makes oath that he will support the constitution of the United States, and that he does absolutely and entirely renounce and abjure all allegiance to every foreign power, potentate or sovereignty whatever and particularly to ———

Thereupon James B. White is admitted to full citizenship.

The above declaration is fresh from the court records of Kosciusko county, and was copied, at Warsaw, yesterday, by a press representative. Therefore in the hour of our triumph, and the triumph of truth over deceit, THE SENTINEL will be magnanimous, and alone directs attention to the fact that eleven days ago Capt. J. B. White was *"admitted to full citizenship."* The laws of the country say in plain, unmistakable terms he must have been a "citizen" (not a resident) seven years before he can sit in congress. Captain White's solemn, deliberate declaration is recorded above that he was not a "citizen" before November 1, and cannot hope to sit in congress. Neither will there be a new election. Inasmuch as the voters were given due notice of Captain White's ineligibility. Therefore Judge Robert Lowry is the duly elected congressman from the Twelfth district. As "the facts are stated to the undersigned," we believe THE SENTINEL is sustained and truth prevails.

SPECS OF WAR.

Prince Waldemar Hesitates—The Powers Organizing.

TIRNOVA, Nov. 11.—Prince Waldemar has sent a telegram to the regents expressing his grateful sense of the honor confered upon him by the sobranje in electing him prince of Bulgaria. He states, however, that the decision as to his accepting rests with his father, the king of Denmark, and adds that other duties may prevent him assuming the rulership of Bulgaria. The prince's reply is considered a refusal of the throne.

PESTH, Nov. 11.—After the election of Prince Waldemar to the Bulgarian throne, yesterday, the Austrian and German ambassadors, at St. Petersburg, were instructed by their governments to inquire of Russia the name of the candidate she favored as Prince Alexander's successor. If Russia refuses to accept the election of Prince Waldemar or nominate another candidate, it will be considered that she entertains designs against Bulgarian independence, and in this event, England, Germany, Austria and Italy will arrive at an understanding similar to the one that existed during the period of the Berlin congress.

The Telephone Company's Suit.

CINCINNATI, Nov. 11.—The opinion of the United States circuit court in the case of the government against the American Bell Telephone company was delivered this morning by Judge Sage. It is very voluminous and is in favor of the telephone company.

The bill was dismissed for want of jurisdiction and went out of prejudice to instituting suit elsewhere.

POISON!

Three Men Drink From a Fatal Jug of Liquor.

EAST SAGINAW, Nov. 11.—In Jaymouth township, this county, David Cook, O. C. McGuyan and Hugh Stewart drank from a jug that had been furnished by the first named. All the men were taken ill with symptoms of poisoning. Smith died and the others are yet in a dangerous condition. It was reported that the poison was placed in the liquor by Smith with the intention of taking his own life, but no reason for the wish to commit the double suicide is known.

Weather Indications.

WASHINGTON, Nov. 11.---The weather indications are as follows:

Kentucky, light rains followed by fair weather.

Ohio, Michigan and Indiana, fair weather, slight changes in temperature.

Business Failure.

HAVERHILL, Mass., Nov. 11.—C. Haven, coffin and shoe manufacturer, assigned to H. G. Case. Liabilities, $75,000.

LOOKS BETTER.

The Stock Yards Workmen Increasing —Three Hundred From New York.

CHICAGO, Nov. 11.—The situation at the stock yares shows an improvement this morning. All the packers report that their forces are increasing, and among the applicants for work to-day are many of the old men. Three hundred workmen, engaged by Fowler & Co., in New York last Monday, arrived at the yards and reached their employers esta blishment without any molestation.

A STRIKE SETTLED.

JERSEY CITY, N. J., Nov. 11.—The strikers at the hog abattoir on the Hackensack Meadows all went back to work this morning at an increase of wages. The company refused to dismiss two foremen as the strikers demanded and also refused to treat with a committee from the Knights of Labor. Both parties made concessions.

Forty members of the First Illinois cavalry have been ordered to the Chicago stock yards, where they will be furnished with horses by the packers.

Out of 40,000 hogs on sale at the Chicago yards, yesterday, 1,654 were purchased by packers. Prices closed five and ten cents per hundred pounds lower. There was a marked increase in the number of cattle bought for slaughter.

A Big Fire at Chicago.

CHICAGO, Nov. 11.—The entire stock of McLaughlin & Co., consisting of coffee, teas and spices, is burned, involving a loss of $55,000, fully insured. Loss on building from $1,000 to $2,000.

A HUMMER.

A Plan to Seize Mexico and Establish a Socialist Republic.

NEW YORK, Nov. 11.—A special from Dallas, Texas, says: "It appears that the filibustering expedition proposed to invade Mexico and establish a new republic, to be composed of the present states of Chihuahua, Sonora and Durango, is progressing. The executive committee consists of twelve persons, three of whom are located in ElPaso, two are traveling and working up the scheme by secret agents and the remainder, some very wealthy men, are in New York, Chicago, Salt Lake City and the City of Mexico. Three of the executive committee are Roman Catholic priests, and one of the latter is now on his way to Rome to confer with the pope. His holiness, it is said, has long desired some convulsion in Mexico which might give an opportunity for the re-establishment there of the state church, and the conspirators look with great confidence to him for aid.

"It is to be a socialistic republic, held in check by strong military power. Great inducements are to be offered to the unemployed workingmen of the United States to emigrate thither. The secret agents state that the proposed invasion will not necessarily or probably take place from El Paso, but may soon occur at any point on the frontier between Fort Yuma and Brownsville. Cutting, the only man whose personality is publicly known or suspected in connection with the affair, is receiving a bushel of letters a day from all parts of the country.

A BIG THING.

A Gushing Gas Well Tapped by Excited Muncie People.

MUNCIE, Ind., Nov. 11.—[Special.]—Great excitement prevails in this city over the first strike of gas which occurred at 5 o'clock, this morning, in the northeastern part of Muncie at the depth of 888 feet. The pressure is stronger than that of the Eaton, Ind., well and is increasing hourly. It is proposed to bore some deeper before shooting the well. The enterprise was projected by local capitalists and boring commenced about five weeks ago.

POLITICS AND PARSONAL.

Frank Lawler, democratic candidate for congress in Illinois, thought to have been defeated, has a majority of six on the recount of the ballots.

Mr. and Mrs. Henry Waterson arrived in New York Tesday.

The mayor of Indianapolis refuses to fine people who get liquor on the Sabbath, until the guilty saloon keepers who sell the stuff are punished.

Bob Ingersoll says: "I believe in protecting 'infant industries,' but I do not believe in rocking the cradle when the infant is seven feet high and wears No. 12 boots.

The Tichborne claimant, who is in jail in New York, charged with attempted pension frauds, is the California claimant, and not Arthur Orton, the English claimant. The latter is in New York, sick and nearly destitute, being supported by the meagre earnings of his wife as a variety actress.

The newly elected members of the legislature have nearly all made application to Miss Callis, state librarian, for the best seats in the legislative hails, but she has as yet been unable to locate them, as she has no diagram of seats. The state house commissioners, when she consulted them about the matter, said that they had another plan, and would assign the seats by lots. Miss Callis is not inclined to consent to any such arrangement as this, as the law specificially provides that the assignment of seats shall be made by the librarian, and she proposes to do it. Just how the commissioners have anything to do with it is not exactly clear.

A Child Burned to Death.

LOGANSPORT, Ind., Nov. 11.—Minnie Helvie, aged six years, only daughter of Samuel Helvie, a leading citizen of Anoka, this county, was burned to death to-day while playing around some leaves that were burning.

Held for Manslaughter.

LOGANSPORT, Nov. 11.—In a drunken riot at a Sunday-school picnic at Lake Maxinkuckee, last July, Abraham Leslie, a member of the Mexico band was killed. The grand jury of Marshall county to-day found indictments for manslaughter against Charles Taylor, of Terre Haute, and George Harris, of this city, both Vandalia employes.

The people of LaGro, Wabash county, are greatly agitated over the report that a former resident of that neighborhood, David Seibert, and his wife, are in jail in an Illinois town, for the alleged murder of their daughter, Laura Seibert. During his residence at LaGro, Mr. Seibert was considered a kind man to his family, although known to be the possessor of a violent temper.

The Express Robbery.

ST. LOUIS, Nov. 11.—Before the grand jury at St. Louis a Wabash engineer named Heffernan, testified that on the night of the express robbery on the San Francisco he saw Messenger Fotheringham help a suspicious character into his car as the train moved out of the depot at St. Louis.

ALL telegraph poles, in the country as well as in the city, are liable to come down some day. Edison feels confident that telegraphing will yet be conducted without wires. There are certain electric currents in the earth, he says, that are perfectly adapted to that end. The only difficulty is to locate them accurately.

POLICE POINTERS.

The Lamb Joint Raided and a Spicy Trial is Promised Us.

There was much stir at the city hall this morning as his honor, Mayor Muhler, sauntered into his arm chair. Officer John O'Connell read the names of a sixtette of celebrities he found ensconced in the "Lamb house," over John Leichner's saloon, in the Keystone block. The policeman explained that the place was a "resort" or "meeting place" for depraved women and vicious men. It is said that Lamb and his wife derive a dollar from each party of "callers" and they have to run a gauntlet something like a toll gate. As a result of this peculiar arrangement the joint was in great demand and clandestine interviews were numerous, interesting and sensational, involving solid citizens. The party slated were George Wyess, John Williams, Michael Lamb, Dora Lamb, Mary Woelfer and Alice Roach. Miss Roach is from Warsaw and a man "put up" for her. Miss Woelfer is from Fort Wayne, and although her friend had a roll he let her go to the station. Mr. and Mrs. Lamb proposes to contest their arrest for maintaining a questionable house, and spicy treat is looked forward to next Monday. Captain Diehl, Lieutenant Wilkinson and Officer O'Connell will summon all people whom they know to resort to the rooms, and sensations are promised, as Captain Diehl stoutly asserted that he proposed to stop that sort of business.

Thomas Martin, Albert Witchett and George Saffron were arraigned for drunkennness. Saffron, too, was charged with assaulting his father, Tom Saffron.

THE STATE.

What is Said in the Field of Politics and News About Us.

The Warsaw Light Guards, having received their arms, are now busily engaged in learning the "manual."

Hon. William Williams, of Warsaw, left yesterday for California, where he will remain during the coming winter.

Four democrats were elected in Noble county: Charles K. Green, for treasurer; N. B. Newman, for commissioner; Dick Williams, for sheriff, and the coroner.

The democratic cand date for treasurer in Noble county had 624 majority, and the republican candidate for auditor had a majority of 560. That is quite a difference.

District assembly, No. 58, Knights of Labor, embracing the assemblies of seventeen counties in southern Indiana and several in Illinois, are in secret semi-annual session at Evansville.

DeKalb county took a flop politically last week, the republicans capturing everything but auditor. For the first time in twenty-two years the republicans elected a representative.

It is claimed that Mr. Meagher, democratic member-elect of the Indiana legislature for Vigo county, Terre Haute, is ineligible by reason of having been elected a justice of the peace last April. If this should prove to be correct the legislature will be a tie.

All the tally sheets and other papers relating to the election in Indianapolis and Marion county, Ind., have been transferred to the custody of the clerk of the United States court, there to remain until the grand jury of that court can consider the alleged fraud in the court of the votes.

Augustus Quealy, the leading bookseller and stationer of Logansport, and one of the leading business men, failed yesterday and made an assignment for the benefit of his creditors, who are mostly foreign. The amount for which Mr. Quealy failed is not known yet. The stock will be closed out at once to satisfy creditors.

WABASH SURGEONS.

Conferring as to the Best Means to Relieve Suffering---How Gould's Railway Employes Provide Against Accidents and Misfortune.

The surgical association of the Wabash, St. Louis and Pacific Railway company convened in fifth annual session Thursday morning in Pythian hall, corner Eleventh and Main streets, Kansas City. The president, Dr. J. W. Jackson, delivered a brief address of welcome to the fifty or sixty surgeons present from other points on the lines of the company. Dr. Jackson, who is also chief surgeon of the road, has his headquarters in Kansas City. Under him are surgeons residing in all the principal towns through which the road runs, whose duty it is in case of injury to any of the company's employes to give them the first attention and prepare them to be sent to the company's hospitals in Kanses City, St. Louis, Springfield, Ill., Danville, Ill., and Peru, Ind. There they are cared for until pronounced well and able to return to work. The expenses of the hospitals are met by an assessment of fifty cents per month on all employes of the company who receive $35 per month or more. Dr. C. B. Stemen, secretary and treasurer, in his report, said: "We have had many letters of inquiry from railway officials concerning our organization and also from many surgeons on other railroads. We feel that we have reason to be proud of this society, it being the first association of railway surgeons in the world—holding its first meeting January 5, 1882. The next to follow was the surgical society of the Pennsylvania railway company, which was organized October 18, 1882. In view of the fact that this is the pioneer surgical association of railway surgeons, and that the Wabash company has successfully carried forward its hospital system, every member of it has just reason to feel proud."

Dr. M. O. Lowor, of North Manchester, Ind., read a paper on "The Treatment of Wounds, and Dr. C. B. Stemen, of Fort Wayne, Ind., a paper on "Antiseptic Surgery." The papers were discussed by Dr. Jackson, of Kansas City; Dr. Bird, of Quincy, Ill.; Dr. French, of Mexico, Mo.; Dr. Shafer, of Huntington, Ind., and others.

At the afternoon session Dr. G. S. Gregg, of Fort Wayne, Ind., in a paper entitled "Report of an Interesting Case," described how he had saved a badly crushed arm after amputating one of the patient's legs. Dr. Stemen, in discussing the paper, said he believed that in many cases of compound fracture amputation might be avoided if the patients were free from constitutional diseases and were not addicted to the use of alcoholic stimulents. Drs. Jackson, of Kansas City; Beasley, of Lafayette, Ind.; Beck, of Delphi, Ind., and Byrd, of Quincy, Ill., also told of their successes in saving injured limbs that seemed to require amputation; "A Case of Sciatica—Was it the Result of Trauma?" was the subject of the paper read by Dr. S. A. Spillman, of Ottumwa, Ia. Drs. Stemen and Gregg returned home this morning highly pleased with their work.

THE WOMEN.

REPORT OF TRUSTEES OF THE WATER WORKS.

1. After careful observation of the large flow of water at the gas well we are led to believe that we can, by drilling four or five wells, obtain a sufficiency of water for our city which is pure, wholesome and as clear as crystal. The sulphur which is in the water is of no importance, as it evaporates as soon as it strikes the air. Accordingly we have concluded to make an experiment and have one well made. The cost will be but a small matter and if this well gives satisfactory results the city will have one of the best, purest and most wholesome water supplies in the country. We respectfully ask your approval of this, which we think will be very beneficial to the city.

2. In relation to the resolution of Councilman Doehrman, which was adopted by the council on the 12th day of October for the extension of water mains on East Lewis street, from Harmer street to Lillie street, and the resolution of Councilman Scheid, which was adopted on the 24th day of October, for the extension of water mains on Hanna street, from the present terminus to the south side of Taber street, we would say that these extensions cannot be made this year, from the fact that that it is too late in the season; and moreover, we could not, under any circumstances, obtain the pipe, as we have had an order in the hands of the manufacturers since last September and as yet they have been unable to fill it.

DR. HENRY WILE, of Atlanta, has been trying for a long time to cure the scalp wound of a 9-year-old girl who, while a baby, fell in the fire and received burns that never healed. He decided to give the girl a new scalp, and said that he would have to take the skin from some one's arm. The girl's cousin, a brave boy of twelve, at once bared his arm, and the Doctor removed twenty-five small pieces of cuticle and placed them on the head of the girl. Both children went home well pleased, but the boy's father was very angry, and has sued the Doctor for assault and battery on his son.

The First Keen Twinge.

As the season advances the pains and aches by which rheumatism makes itself known, are experienced after every exposure. It is not claimed that Hood's Sarsaparilla is a specific for rheumatism—we doubt if there is, or can be, such a remedy. But the thousands benefitted by Hood's Sarsaparilla, warrant us in urging others who suffer from rheumatism to take it before the first keen twinge.

It is claimed that in Steuben county twenty-one tickets were thrown out because a slight piece had been torn off the corner by the printer in cutting.

Throat Diseases commence with a cough, cold or sore throat. *"Brown's Bronchial Troches"* give immediate relief. *Sold only in boxes.* Price 25 cts.

Mr. and Mr. Samuel Favorite, of Lafayette, on Thursday, celebrated the sixtieth anniversary of their wedding. They are in their eighty-third year, and both hearty for persons of that age.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

OUR REVENUE MARINE.

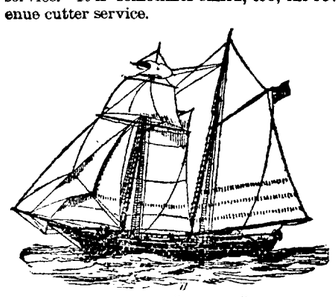
PICTURES OF UNITED STATES COAST GUARD VESSELS.

The Service that Prevents Smuggling, Protects the Seal Fisheries, Takes a Hand in Our Wars and Goes on Arctic Expeditions.

REVENUE ENSIGN.

"COAST guard! I didn't know we had any!" That is what the average intelligent person occasionally says when the United States coast guard is mentioned. The average intelligent person mostly asks next: "What is the coast guard?"

It is the force of armed vessels that move up and down and around the coasts of the United States and prevent smuggling, or do anything else for the government in which watching and fighting are wanted. In other words, it is United States revenue marine service. It is sometimes called, too, the revenue cutter service.



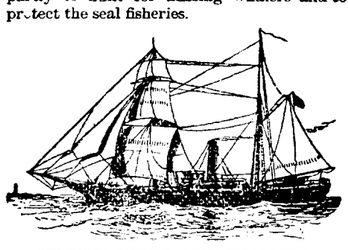
THE OLD "DOBBIN."

The fact is that we had a revenue cutter service before we had a navy. Alexander Hamilton, the first secretary of the treasury, recommended it as long ago as 1789, and his suggestions were acted on in 1790, so that the service is now nearly a century old. Hamilton recommended the "employment of boats for the security of the revenue against contraband."

The first boats were small, sharp-bowed sloops, meant to coast along the bays and inlets and keep a sharp lookout. They were of very light draught. There were ten of these single masted little vessels in the first batch ordered.

It was not long till the small fleet grew. In a country in which, from the beginning, wealth and population have increased faster than was ever known before, ten revenue cutters were not long sufficient to do the work. In 1799 the United States revenue cutter flag was adopted. It is that which appears at the top of this column, ensign and pennant; the ensign with sixteen vertical alternate red and white stripes, and a union containing a blue eagle on a white ground surmounted by thirteen blue stars. Wherever you see that device, at home or in foreign ports, you will know that there is a vessel belonging to the United States revenue marine service.

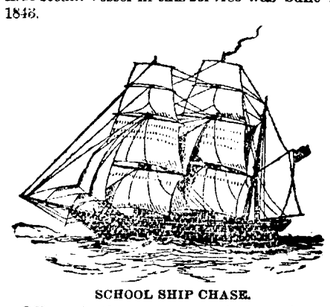
The revenue vessels do go to foreign ports now. They take part in our wars. In 1812 they took a conspicuous part. The ensign with the sixteen vertical stripes is familiar in the waters of the world. Some have made famous expeditions to the Arctic regions. One of the most celebrated among these is the revenue cutter Corwin, noted for her cruises to Alaska, Wrangel land and other frozen regions. What did she go to those outlandish places for? Well, partly to prevent the traffic in liquor and other unlawful goods in Alaska, partly to hunt for missing whalers and to protect the seal fisheries.



REVENUE CUTTER LEVI WOODBURY.

Once she went to Siberia to bring home the crew of the Rodgers. But long ere this the small, sharp pointed single masted sailing cutters had changed and grown into large and small steamers, armed and equipped equal to men-of-war. About thirty years ago the J. C. Dobbin was built—a topsail schooner. Years before that the revenue marine vessels had changed from the single masted sloops to the type of topsail schooner with its two masts. The Dobbin was the last of the schooner type. The old Dobbin appears in the second illustration.

The vessel in the third illustration, the Woodbury, shows the modern type of revenue steamer. Small steamers belonging to the revenue service are called steam launches. Where we started with ten little boats for this arm of government in 1790, there are now forty, mostly large ones. The coast guard has kept pace with the growth of the country. Twenty-five of these vessels are steamers of 130 to 500 tons. The first steam vessel in this service was built in 1846.



SCHOOL SHIP CHASE.

Officers in the revenue marine service are required to be practically educated for its duties. There is a system of instruction and promotion as rigid as at West Point or the Naval academy, at Annapolis. The course of instruction is passed on board the schoolship Salmon P. Chase. It lasts two years, and is very thorough. When he enters on the course, the young man becomes a cadet. At its close he becomes a third lieutenant. The cadet must be between the ages of 18 and 25, perfectly sound physically, and have book qualifications equal to those required by the examination at Annapolis. He is thoroughly instructed in all the duties of navigation, from the work of common sailor to that of commander. He must likewise have a military drill. The Chase makes foreign cruises every year, to give the young men practical experience.

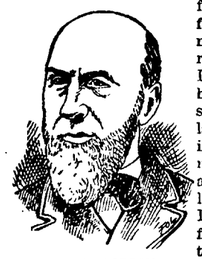
The whole marine force, officers, privates and engineers, at present numbers 1,016 men. Of these 800 are private sailors. Our coasts are divided into districts, each under the jurisdiction of collector of customs for a given port. Certain of the revenue marine officers are detailed as inspectors of the life-saving service.

AUSTIN CORBIN.

The New President of the Philadelphia and Reading Road.

The coming man in the railroad world appears now to be Austin Corbin, the newly elected president of the Philadelphia and Reading railroad. That road has been before the public up and down now for a dozen years as one whose affairs seemed everlastingly entangled. Mr. Corbin saved the Long Island railroad when it was in the hands of a receiver overwhelmed with debt, and in his own words, consisted only of "two streaks of rust and a right of way." Under his management it changed from this condition in eight months' time to a road in good repair and paying expenses.

Mr. Corbin's business successes are won by the shrewd methods of the money lender, which he learned in his youth. He made the foundation of his fortune by lending money on embarrassed farms in Iowa. In this way he came into possession of western lands. He was born in New Hampshire nearly sixty years ago. He studied law and went to Iowa. But he soon found the real estate business more profitable than the law, and he went into that at Davenport. From real estate he turned his attention to banking. He established in Davenport the first national bank ever chartered in this country.



AUSTIN CORBIN.

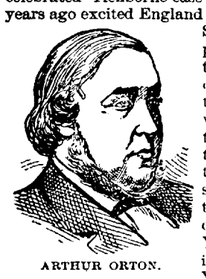
He presently felt a call to go east and try his money making ability there. Eastern capitalists had loaned large sums of money through him on Iowa farms, and he already had an extensive financial acquaintance on the Atlantic coast. He went to New York in 1865, and has gained steadily in wealth and reputation.

Mr. Corbin has the prominent nose and square cut mouth of the money getter. He would get rich when all around him became poor. He is the proprietor of the largest hotels and the railroad on Coney Island. He has so fenced off the land there that it is impossible to get from one of his hotels to another without traveling upon his railroad though the houses are only a few minutes' walk apart.

AN UNFORTUNATE CLAIMANT.

The Alleged Sir Roger Tichborne Dying in Poverty.

In a small room over a Fourth avenue store, in New York city, is lying the plaintiff in the celebrated Tichborne case that some thirteen years ago excited England to the very throne.



ARTHUR ORTON.

So divided was public opinion in the matter and so confident were those who sided with the claimant that he was the true Sir Roger that they would have sacrificed their fortunes to see that he obtained justice. Yet he is now dying in poverty in New York. Arthur Orton is either the most injured man or the greatest humbug of the age. And of the latter he is the most persistent and consistent. In 1871, it may be remembered, he appeared in England as Sir Roger Tichborne, who was said to have been drowned years before, and as the claimant to immense estates. He bore the marks and many of the characteristics of Sir Roger sufficient to satisfy Lady Tichborne that he was her son. He seemed also to be familiar with the history of the family. But the remarkable thing on the other hand against him was that while Sir Roger was an educated gentleman and a Roman Catholic when he left England, the claimant was scarcely able to read or write, nor could he make "the sign of the cross," one of the simplest marks of a Catholic.

His excuse for this deficiency was that he had forgotten in Australia all that he ever learned in his youth. He was defeated in his attempt to oust those already settled on the estate. Then he was tried and convicted of forgery and perjury after one of the most remarkable trials on record. His sentence was for fourteen years. He served nearly eleven years of it.

ORTON AND WIFE IN HIS PRESENT QUARTERS.

He came to this country some time ago for the purpose of raising money by lecturing in order to prosecute his case once more, bringing with him his wife as a concert singer to assist him. There were but thirteen persons at his first lecture. His wife sang and danced for a time at a concert hall. She was also a failure, and now she has to nurse her husband, who is suffering from blood poisoning.

Catarrh is a constitutional disease, Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

BRANDER MATTHEWS tells of an old family butler complaining about the disadvantages of serving a "shoddy" millionaire. "Those sort of people," he said, "don't never treat their servants properly; they can't afford to do it; there ain't margin enough."

In the Dear Old Days.

We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you mourn the loss oft his blessing and ornament, a bottle or two of Parker's Hair Balsam will make you look as you did in the dear old days. It is worth trying. It is the only standard 50c article for the hair.

OF the thousand or more prisoners discharged from Sing Sing prison during the last year and a half, there was not one who was not able to sign his name. Many had learned this while at penal service. More than one who has entered the prison ignorant has been able on coming out to make a new start in life with the education obtained within prison walls.

THERE was once a Texas settlement that, by some peculiar freak of nomenclature, came to be called Bullhead. A pompous but thick-headed citizen wanted to have the name changed, and at a called meeting he modestly proposed to affix his own name to the place. "That wouldn't be any change," said the blunt man of the town; whereat everybody laughed, and the old name remained.

"Fools rush in where Angels fear to tread." This is a very bitter retort by the poet, but it's justice is often exemplified; in no case more in point, when the danger is considered, than in the counterfeiting and adulteration of old, tried and standard medicines. That good, old remedy, the best in the world for Inflammations, hemorrhages and *all kindred diseases*, *Pond's Extract* is being imitated. *Pond's Extract* is perfectly harmless, taken either internally, *but beware of spurious imitations*

General Carnahan will next week go to the New England states to inspect the Uniform Rank Knights of Pythias.

They are Not sorry.

There is one thing nobody ever regrets—that is, the day they first adopted Parker's Tonic as their regular family medicine. Its range is so wide, and its good effects so sure, that nothing else, except good nursing, are needed in a great majority of cases. Buy it, try it, and afterwards it will not require any praise from us.

Kosciusko republicans elected everything.

In the Hop Plaster are united fresh hops, gums and balsams, and its power is wonderful in curing back ache, sprains, bruises, neuralgia, pain in the side or soreness anywhere. Thousands testify to this.

Officer Ben Thornton, of the Indianapolis metropolitan police, was in the city yesterday after a horse thief, who was located here. Thornton is a colored man, but a very "fly" cop in his line of business. He says that in the past year fifty horses have been stolen at Indianapolis, and not one of them recovered. Sheriff Nelson records but the loss of one horse in the past year in Allen county, and gave that thief a big chase for two days.

The old gentleman who was killed on the Grand Rapids and Indiana railroad last week near LaOtto, was, according to a statement made by Father Deuhmig, of Avilla, who knew him, John Castello, an Irishman by birth, aged seventy-two years. He had spent the night before his death at Avilla with his Catholic brethren. He was an unmarried man, sober and honest but without a home, and was making his way to Fort Wayne, where had acquaintances, and where he expected to find a home in the county asylum.

Gus Hill's "World of Novelties" is undoubtedly one of the best, if not the very best, variety entertainments ever seen in the city, and will have big houses at the Temple to-morrow and Saturday evenings. The Cincinnati *Sun* says: "There is nothing approaching it on the stage this season, and the public evidently understands this, as the People's theater was crowded twice yesterday. Mlle. Anna, Mlle. Alberta and the Barretta Sisters do their very startling and graceful arial acts; Nat Haines and Will Vidocq keep the audience in a continuous roar for half an hour, and Dolly Foster and Lottie Gilson create havoc in the front rows. A telegram from New York detailing that the Pennsylvania railroad company has a surplus of $100,000,000, and is looking for a route to the Pacific coast, adds: "The Pennsylvania road was the first eastern road to secure an entrace into Chicago. They did it by the purchase of the Fort Wayne road. The Northwestern road is not feeling its way to the Pacific coast, so that the Pennsylvania road, in acquiring, it would practically be paving the way for another transcontinental line."

Fort Wayne boys are pushing to the front abroad. Yesterday THE SENTINEL noted the election of L. J. Rochall as superintendent of schools in a Minnesota county. Mr. Frank E. Bowen, son of Daniel Bowen, of this city, writes that he has been elected district attorney of Morton county, Dakota, by a handsome majority. Mr. Clarence Cromwell sends his friends the news of his election to the office of road supervisor of LeRoy county, Kansas, on the prohibition ticket. Mr. Cromwell was the only one elected on the ticket. So, also, did we note the other day the election of Mr. Ney, of this county, to the district judgeship at Dubuque, Iowa. It behooves the latent youth to go west.

$2 A DAY.

The Supreme Court Says a Township Trustee is Only Entitled to That Sum.

The supreme court decided a few days ago that for services in the ordinary civil and school business of the township, the trustees shall be paid at the rate of $2 per day out of the township fund, and for services as overseer of the poor he shall be paid at the same rate out of the county treasury, and separate accounts must be kept of the amount of each class of service rendered from time to time. As applicable to both classes of cases, the section means an allowance of only $2 can be made for an actual day's service without reference to the manner in which the day may have been divided between the two classes of service, and consequently a township trustee is not entitled to receive out of any fund more than $2 for official services performed during any one day.

GEO. DeWALD & CO.

WE TOLD THE TRUTH

And Here Is Our Proof---Capt. J. B. White Only Takes Out His Second Papers One Day Before the Election.

Just before the late election THE SENTINEL published to the voters of this district the fact of Capt. J. B. White's ineligibility to the office of congressman because he was not a citizen of the United States and had never applied for his second papers, or made his final declaration endowing him with all the rights and privileges of a free born American.

For thus honestly endeavoring to enlighten the people, THE SENTINEL was accused almost of bigotry, the truth of its assertions was questioned by the republican press and public speakers, Capt. J. B. White evaded the issue, able lawyers passed upon the matter "as it was presented to the undersigned," and to cap the climax an "indignation" meeting was called to protest against the audacity of any person questioning Capt. White's ineligibility. THE SENTINEL time and again asked for proof of Captain White's citizenship and some one would firmly arise and temporarily swoop aside the constitution, just for the sake of argument. This journal is enterprising and inasmuch as Captain White and his friends have hesitated about the matter, we give to the world proof of the gentleman's admission to full citizenship in the Kosciusko county court, Nov. 1, 1886, just one day before the last election. Read and ponder on it.

Order Book 36, Page 528. Kosciusko Circuit court:

Monday Morning, Nov. 1, 1886.

The Kosciusko circuit court met pursuant to adjournment. Present the same judge and officers of court as on Tuesday last.

Personally appeared in open court James B. White, a native of ——— and shows to the court by his declaration under oath and satisfactory proof by the examination of two competent witnesses that he has resided in the United States and has continued to reside therein for more than five years, and in the state of Indiana one year, his attachment to the principles of the constitution of the United States and favorable disposition to the good order and happiness of the same and likewise his behavior as a man of good moral character.

Thereupon James B. White was duly sworn in open court and makes oath that he will support the constitution of the United States, and that he does absolutely and entirely renounce and abjure all allegiance to every foreign power, potentate or sovereignty whatever and particularly to ———

Thereupon James B. White is admitted to full citizenship.

The above declaration is fresh from the court records of Kosciusko county, and was copied, at Warsaw, yesterday, by a press representative. Therefore in the hour of our triumph, and the triumph of truth over deceit, THE SENTINEL will be magnanimous, and alone directs attention to the fact that eleven days ago Capt. J. B. White was "*admitted to full citizenship.*" The laws of the country say in plain, unmistakable terms he must have been a "citizen" (not a resident) seven years before he can sit in congress. Captain White's solemn, deliberate declaration is recorded above that he was not a "citizen" before November 1, and cannot hope to sit in congress. Neither will there be a new election. Inasmuch as the voters were given due notice of Captain White's ineligibility. Therefore Judge Robert Lowry is the duly elected congressman from the Twelfth district. As "the facts are stated to the undersigned," we believe THE SENTINEL is sustained and truth prevails.

SPECS OF WAR.

Prince Waldemar Hesitates---The Powers Organizing.

TURNOVA, Nov. 11.—Prince Waldemar has sent a telegram to the regents expressing his grateful sense of the honor conferred upon him by the sobranje in electing him prince of Bulgaria. He states, however, that the decision as to his accepting rests with his father, the king of Denmark, and adds that other duties may prevent him assuming the rulership of Bulgaria. The prince's reply is considered a refusal of the throne.

PESTH, Nov. 11.—After the election of Prince Waldemar to the Bulgarian throne, yesterday, the Austrian and German ambassadors, at St. Petersburg, were instructed by their governments to inquire of Russia the name of the candidate she favored as Prince Alexander's successor. If Russia refuses to accept the election of Prince Waldemar or nominate another candidate, it will be considered that she entertains designs against Bulgarian independence, and in this event, England, Germany, Austria and Italy will arrive at an understanding similar to the one that existed during the period of the Berlin congress.

The Telephone Company's Suit.

CINCINNATI, Nov. 11.—The opinion of the United States circuit court in the case of the government against the American Bell Telephone company was delivered this morning by Judge Sage. It is very voluminous and is in favor of the telephone company.

The bill was dismissed for want of jurisdiction and went out of prejudice to instituting suit elsewhere.

POISON!

Three Men Drink From a Fatal Jug of Liquor.

EAST SAGINAW, Nov. 11.—In Jaymouth township, this county, David Cook, O. C. McGuyan and Hugh Stewart drank from a jug that had been furnished by the first named. All the men were taken ill with symptoms of poisoning. Smith died and the others are yet in a dangerous condition. It was reported that the poison was placed in the liquor by Smith with the intention of taking his own life, but no reason for the wish to commit the double suicide is known.

Weather Indications.

WASHINGTON, Nov. 11.—The weather indications are as follows:

Kentucky, light rains followed by fair weather.

Ohio, Michigan and Indiana, fair weather, slight changes in temperature.

Business Failure.

HAVERHILL, Mass., Nov. 11.—C. Haven, coffin and shoe manufacturer, assigned to H. G. Case. Liabilities, $75,000.

LOOKS BETTER.

The Stock Yards Workmen Increasing—Three Hundred From New York.

CHICAGO, Nov. 11.—The situation at the stock yards shows an improvement this morning. All the packers report that their forces are increasing, and among the applicants for work to-day are many of the old men. Three hundred workmen, engaged by Fowler & Co., in New York last Monday, arrived at the yards and reached their employers establishment without any molestation.

A STRIKE SETTLED.

JERSEY CITY, N. J., Nov. 11.—The strikers at the hog abattoir on the Hackensack Meadows all went back to work this morning at an increase of wages. The company refused to dismiss two foremen as the strikers demanded and also refused to treat with a committee from the Knights of Labor. Both parties made concessions.

Forty members of the First Illinois cavalry have been ordered to the Chicago stock yards, where they will be furnished with horses by the packers.

Out of 40,000 hogs on sale at the Chicago yards, yesterday, 1,051 were purchased by packers. Prices closed five and ten cents per hundred pounds lower. There was a marked increase in the number of cattle bought for slaughter.

A Big Fire at Chicago.

CHICAGO, Nov. 11.—The entire stock of McLaughlin & Co., consisting of coffee, teas and spices, is burned, involving a loss of $55,000, fully insured. Loss on building from $1,000 to $2,000.

A HUMMER.

A Plan to Seize Mexico and Establish a Socialist Republic.

NEW YORK, Nov. 11.—A special from Dallas, Texas, says: "It appears that the filibustering expedition proposed to invade Mexico and establish a new republic, to be composed of the present states of Chihuahua, Sonora and Durango, is progressing. The executive committee consists of twelve persons, three of whom are located in El Paso, two are traveling and working up the scheme by secret agents and the remainder, some very wealthy men, are in New York, Chicago, Salt Lake City and the City of Mexico. Three of the executive committee are Roman Catholic priests, and one of the latter is now on his way to Rome to confer with the pope. His holiness, it is said, has long desired some convulsion in Mexico which might give an opportunity for the re-establishment there of the state church, and the conspirators look with great confidence to him for aid.

"It is to be a socialistic republic, held in check by strong military power. Great inducements are to be offered to the unemployed workingmen of the United States to emigrate thither. The secret agents state that the proposed invasion will not necessarily or probably take place from El Paso, but may occur at any point on the frontier between Fort Yuma and Brownsville. Cutting, the only man whose personality is publicly known or suspected in connection with the affair, is receiving a bushel of letters a day from all parts of the country.

A BIG THING.

A Gushing Gas Well Tapped by Excited Muncie People.

MUNCIE, Ind., Nov. 11.—[Special.]—Great excitement prevails in this city over the first strike of gas which occurred at 5 o'clock, this morning, in the northeastern part of Muncie at the depth of 858 feet. The pressure is stronger than that of the Eaton, Ind., well and is increasing hourly. It is proposed to bore some deeper before shooting the well. The enterprise was projected by local capitalists and boring commenced about five weeks ago.

POLITICS AND PARSONAL.

Frank Lawler, democratic candidate for congress in Illinois, thought to have been defeated, has a majority of six on the recount of the ballots.

Mr. and Mrs. Henry Waterson arrived in New York Tesday.

The mayor of Indianapolis refuses to fine people who get liquor on the Sabbath, until the guilty saloon keepers who sell the stuff are punished.

Bob Ingersoll says: "I believe in protecting 'infant industries,' but I do not believe in rocking the cradle when the infant is seven feet high and wears No. 12 boots.

The Tichborne claimant, who is in jail in New York, charged with attempted pension frauds, is the California claimant, and not Arthur Orton, the English claimant. The latter is in New York, sick and nearly destitute, being supported by the meagre earnings of his wife as a variety actress.

The newly elected members of the legislature have nearly all made application to Miss Callis, statelibrarian, for the best seats in the legislative halls, but she has as yet been unable to locate them, as she has no diagram of seats. The state house commissioners, when she consulted them about the matter, said that they had another plan, and would assign the seats by lots. Miss Callis is not inclined to consent to any such arrangement as this, as the law specificially provides that the assignment of seats shall be made by the librarian, and she proposes to do it. Just how the commissioners have anything to do with it is not exactly clear.

A Child Burned to Death.

LOGANSPORT, Ind., Nov. 11.—Minnie Helvie, aged six years, only daughter of Samuel Helvie, a leading citizen of Anoka, this county, was burned to death to-day while playing around some leaves that were burning.

Held for Manslaughter.

LOGANSPORT, Nov. 11.—In a drunken riot at a Sunday-school picnic at Lake Maxinkuckee, last July, Abraham Leslie, a member of the Mexico band was killed. The grand jury of Marshall county to-day found indictments for manslaughter against Charles Taylor, of Terre Haute, and George Harris, of this city, both Vandalia employes.

The people of LaGro, Wabash county, are greatly agitated over the report that a former resident of that neighborhood, David Seibert, and his wife, are in jail in an Illinois town, for the alleged murder of their daughter, Laura Seibert. During his residence at LaGro, Mr. Seibert was considered a kind man to his family, although known to be the possessor of a violent temper.

The Express Robbery.

ST. LOUIS, Nov. 11.—Before the grand jury at St. Louis a Wabash engineer named Heffernan, testified that on the night of the express robbery on the San Francisco he saw Messenger Rottringham help a suspicious character into his car as the train moved out of the depot at St. Louis.

ALL telegraph poles in the country as well as in the city, are liable to come down some day. Edison feels confident that telegraphing will yet be conducted without wires. There are certain electric currents in the earth, he says, that are precisely adapted to that end. The only difficulty is to locate them accurately.

POLICE POINTERS.

The Lamb Joint Raided and a Spicy Trial is Promised Us.

There was much stir at the city hall this morning as his honor, Mayor Mahler, sauntered into his arm chair. Officer John O'Connell read the names of a sixtuits of celebrities he found ensconced in the "Lamb house," over John Leichner's saloon, in the Keystone block. The policeman explained that the place was a "resort" or "meeting place" for depraved women and vicious men. It is said that Lamb and his wife derive a dollar from each party of "callers" and they have to run a gauntlet something like a toll gate. As a result of this peculiar arrangement the joint was in great demand and clandestine interviews were numerous, interesting and sensational, involving solid citizens. The party slated were George Wyess, John Williams, Michael Lamb, Dora Lamb, Mary Woelfer and Alice Roach. Miss Roach is from Warsaw and a num "put up" for her. Miss Woelfer is from Fort Wayne, and although her friend had a roll he let her go to the station. Mr. and Mrs. Lamb proposes to contest their arrest for maintaining a questionable house, and spicy treat is looked forward to next Monday. Captain Diehl, Lieutenant Wilkinson and Officer O'Connell will summon all people whom they know to resort to the rooms, and sensations are promised, as Captain Diehl stoutly asserted that he proposed to stop that sort of business.

Thomas Marlin, Albert Witchett and George Saffron were arraigned for drunkenness. Saffron, too, was charged with assaulting his father, Tom Saffron.

THE STATE.

What is Said in the Field of Politics and News About Us.

The Warsaw Light Guards, having received their arms, are now busily engaged in learning the "manual."

Hon. William Williams, of Warsaw, left yesterday for California, where he will remain during the coming winter.

Four democrats were elected in Noble county: Charles K. Green, for treasurer; N. B. Newman, for commissioner; Dick Williams, for sheriff, and the coroner.

The democratic candidate for treasurer in Noble county had 624 majority, and the republican candidate for auditor had a majority of 560. That is quite a difference.

District assembly, No. 58, Knights of Labor, embracing the assemblies of seventeen counties in southern Indiana and several in Illinois, are in secret semi-annual session at Evansville.

DeKalb county took a dop politically last week, the republicans capturing everything but auditor. For the first time in twenty-two years the republicans elected a representative.

It is claimed that Mr. Meagher, democratic member-elect of the Indiana legislature for Vigo county, Terre Haute, is ineligible by reason of having been elected a justice of the peace last April. If this should prove to be correct the legislature will be a tie.

All the tally sheets and other papers relating to the election in Indianapolis and Marion county, Ind., have been transferred to the custody of the clerk of the United States court, there to remain until the grand jury of that court can consider the alleged fraud in the court of the votes.

Augustus Quealy, the leading bookseller and stationer of Logansport, and one of the leading business men, failed yesterday and made an assignment for the benefit of his creditors, who are mostly foreign. The amount for which Mr. Quealy failed is not known yet. The stock will be closed out at once to satisfy creditors.

OUR REVENUE MARINE.

PICTURES OF UNITED STATES COAST GUARD VESSELS.

The Service that Prevents Smuggling, Protects the Seal Fisheries, Takes a Hand in Our Wars and Goes on Arctic Expeditions.

REVENUE ENSIGN.

COAST guard! I didn't know we had any!" That is what the average intelligent person occasionally says when the United States coast guard is mentioned. The average intelligent person mostly asks next: "What is the coast guard?"

It is the force of armed vessels that move up and down and around the coasts of the United States and prevent smuggling, or do anything else for the government in which watching and fighting are wanted. In other words, it is United States revenue marine service. It is sometimes called, too, the revenue cutter service.

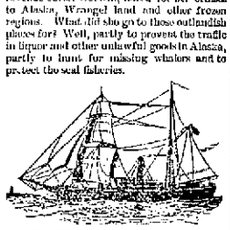
THE OLD "DOBBIN."

The fact is that we had a revenue cutter service before we had a navy. Alexander Hamilton, the first secretary of the treasury, recommended it as long ago as 1790, and his suggestions were acted on in 1790, so that the service is now nearly a century old. Hamilton recommended the "employment of boats for the security of the revenue against contraband."

The first boats were small, sharp-bowed sloops, meant to coast along the bays and inlets and keep a sharp lookout. They were of very light draught. There were ten of these single masted little vessels in the first batch ordered.

It was not long till the small fleet grew. In a country in which, from the beginning, wealth and population have increased faster than was ever known before, ten revenue cutters were not long sufficient to do the work. In 1799 the United States revenue cutter flag was adopted. It is that which appears at the top of this column, ensign and pennant; the ensign with sixteen vertical alternate red and white stripes, and a union containing a blue eagle on a white ground surmounted by thirteen blue stars. Whoever you see that device, an ensign or in foreign ports, you will know that there is a vessel belonging to the United States revenue marine service.

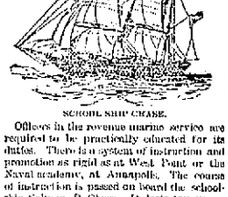
The revenue vessels do go to foreign ports now. They take part in our wars. In 1812 they took a conspicuous part. The ensign with the sixteen vertical stripes is familiar in the waters of the world. Some have made famous expeditions to the Arctic regions. One of the most redoubtable rushing these is the revenue cutter Corwin, noted for her cruises to Alaska, Wrangel land and other frozen regions. What did she go to those outlandish places for? Well, partly to prevent the traffic in liquor and other unlawful goods in Alaska, partly to hunt for missing whalers and to protect the seal fisheries.



REVENUE CUTTER LEVI WOODBURY.

Once she went to Siberia to bring home the crew of the Rodgers. But long ere this the small, sharp pointed single masted sailing cutters had changed and grown into large and small steamers, armed and equipped equal to men-of-war. About thirty years ago the J. C. Dobbin was built—a topsail schooner. Years before that the revenue marine vessels had changed from the single masted sloops to the type of topsail schooner with its two masts. The Dobbin was the last of the schooner type. The old Dobbin appears in the second illustration.

The vessel in the third illustration, the Woodbury, shows the modern type of revenue steamer. Small steamers belonging to the revenue service are called steam launches. Where we started with ten little boats for this arm of government in 1790, there are now forty, mostly large ones. The coast guard has kept pace with the growth of the country. Twenty-five of these vessels are steamers of 150 to 500 tons. The first steam vessel in this service was built in 1845.



SCHOOL SHIP CHASE.

Officers in the revenue marine service are required to be practically educated for its duties. There is a system of instruction and promotion as rigid as at West Point or the Naval academy, at Annapolis. The course of instruction is passed on board the school-ship Salmon P. Chase. It lasts two years, and is very thorough. When he enters on the course, the young man becomes a cadet. At its close he becomes a third lieutenant. The cadet must be between the ages of 18 and 25, perfectly sound physically, and have book qualifications equal to those required by the examination at Annapolis. He is thoroughly instructed in all the duties of navigation, from the work of common sailor to that of commander. He must likewise have a military drill. The Chase makes foreign cruises every year, to give the young men practical experience.

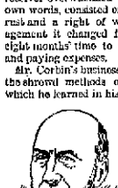
The whole marine force, officers, privates and engineers, at present numbers 1,015 men. Of these 800 are private sailors. Our coasts are divided into districts, each under the jurisdiction of collector of customs for a given port. Certain of the revenue marine officers are detailed as inspectors of the life-saving service.

AUSTIN CORBIN.

The New President of the Philadelphia and Reading Road.

The coming man in the railroad world appears now to be Austin Corbin, the newly elected president of the Philadelphia and Reading railroad. That road has been before the public up and down now for a dozen years as one whose affairs seemed everlastingly entangled. Mr. Corbin saved the Long Island railroad when it was in the hands of a receiver overwhelmed with debt, and in his own words, consisted only of "two strokes of rush and a right of way." Under his management it changed from this condition in eight months' time to a road in good repair and paying expenses.

Mr. Corbin's success was won by the shrewd methods of the money lender, which he learned in his youth. He made the foundation of his fortune by lending money on embarrassed farms in Iowa. In this way he came into possession of western lands. He was born in New Hampshire nearly sixty years ago. He studied law and went to Iowa. But he soon found the real estate business more profitable than the law, and he went into that at Davenport. From real estate he turned his attention to banking. He established in Davenport the first national bank ever chartered in this country.



AUSTIN CORBIN.

He presently felt a call to go east and try his money making ability there. Eastern capitalists had loaned large sums of money through him on Iowa farms, and he already had an extensive financial acquaintance on the Atlantic coast. He went to New York in 1865, and has gained steadily in wealth and reputation.

Mr. Corbin has the prominent nose and square cut mouth of the money getter. He would get rich when all around him became poor. He is the proprietor of the largest hotels and the railroad on Coney Island. He has so fenced off the land there that it is impossible to get from one of his hotels to another without traveling upon his railroad though the houses are only a few minutes' walk apart.

AN UNFORTUNATE CLAIMANT.

The Alleged Sir Roger Tichborne Dying in Poverty.

In a small room over a Fourth avenue store, in New York city, is lying the plaintiff in the celebrated Tichborne case that some thirteen years ago excited England to the very throne.

ARTHUR ORTON.

So divided was public opinion in the matter and so confident were those who sided with the claimant that he was the true Sir Roger that they would have sacrificed their fortunes to see that he obtained justice. Yet he is now dying in poverty in New York. Arthur Orton is either the most injured man or the greatest humbug of the age. And of the latter he is the most persistent and consistent. In 1871, it may be remembered, he appeared in England as Sir Roger Tichborne, who was said to have been drowned years before, and as the claimant to immense estates. He bore the marks and many of the characteristics of Sir Roger sufficient to satisfy Lady Tichborne that he was her son. He seemed also to be familiar with the history of the family. But the remarkable thing on the other hand against him was that while Sir Roger was an educated gentleman and a Roman Catholic when he left England, the claimant was scarcely able to read or write, nor could he make "the sign of the cross," one of the simplest marks of a Catholic.

His excuse for this deficiency was that he had forgotten in Australia all that he ever learned in his youth. He was defeated in his attempt to oust those already settled on the estate. Then he was tried and convicted of forgery and perjury and one of the most remarkable trials on record. His sentence was for fourteen years. He served nearly eleven years of it.

ORTON AND WIFE IN HIS PRESENT QUARTERS.

He came to this country some time ago for the purpose of raising money by lecturing in order to prosecute his case once more, bringing with him his wife as a concert singer to assist him. There were but thirteen persons at his first lecture. His wife sang and danced for a time at a concert hall. She was also a failure, and now she has to nurse her husband, who is suffering from blood poisoning.

Catarrh is a constitutional disease, Hood's Sarsaparilla is a constitutional remedy. It cures catarrh. Give it a trial.

BRANDER MATTHEWS tells of an old family butler complaining about the disadvantages of serving a "shoddy" millionaire. "Those sort of people," he said, "don't never treat their servants properly; they can't afford to do it; there ain't margin enough."

In the Near Old Days.

We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you restore the lose of its blessing and ornament, a bottle or two of Parker's Hair Balsam will make you look as you did in the dear old days. It is worth trying. It is the only standard 50c article for the hair.

Of the thousand or more prisoners discharged from Sing Sing prison during the last year and a half, there was not one who was not able to sign his name. Many had learned this while at penal service. More than one who has entered the prison ignorant has been able on coming out to make a new start in life with the education obtained within prison walls.

THERE was once a Texas settlement that, by some peculiar freak of nomenclature, came to be called Bullhead. A pompous but thick-headed citizen wanted to have the name changed, and at a called meeting he modestly proposed to affix his own name to the place. "That wouldn't be any change," said the blunt man of the town; whereat everybody laughed, and the old name remained.

"Fools rush in where Angels fear to tread." This is a very later retort by the poet, but its justice is often exemplified; in no case more in point, when the danger is considered, than in the counterfeiting and adulteration of old, tried and standard medicines. That good, old remedy, the best in the world for Inflammations, hemorrhages and *all kindred diseases Pond's Extract* is being imitated. *Pond's Extract* is perfectly harmless, taken either internally, *but beware of spurious imitations*

There is one thing nobody ever regrets ...that is, the day they first adopted Parker's Tonic as their regular family medicine. Its range is so wide, and its good effects so sure, that nothing else, except good nursing, are needed in a great majority of cases. Buy it, try it, and afterwards it will not require any praise from us.

The sheriffs of Huntington and Whitley counties were in the city yesterday, and in connection with Sheriff Nelson canvassed the vote for joint representative and joint senator and declared Col. I. B. McDonald and Hon. B. F. Ibach, duly elected.

Officer Ben Thornton, of the Indianapolis metropolitan police, was in the city yesterday after a horse thief, who was located here. Thornton is a colored man, but a very "fly" cop in his line of business. He says that in the past year fifty horses have been stolen at Indianapolis, and not one of them recovered. Sheriff Nelson records but the loss of one horse in the past year in Allen county, and gave that thief a big chase for two days.

The old gentleman who was killed on the Grand Rapids and Indiana railroad last week near LaOtto, was, according to a statement made by Father Deubmig, of Avilla, who knew him, John Castello, an Irishman by birth, aged seventy-two years. He had spent the night before his death at Avilla with his Catholic brethren. He was an unmarried man, sober and honest but without a home, and was making his way to Fort Wayne, where had acquaintances, and where he expected to find a home in the county asylum.

The sale of various divisions of the Indianapolis, Peru and Chicago (Wabash) road will take place, at Indianapolis, Saturday next, from the postoffice steps. There may be several bidders, and there is much speculation as to who wants to pay enough to get the various divisions.

J. J. Turner, superintendent of the Pennsylvania lines west of Pittsburg, has devised an inter-locking switch, which he is testing at Richmond, Ind., which is said to work very satisfactorily. The device is simple and worked by hand, not liable to get out of repair, and not very expensive.

Wade, of the Wabash, tells the officials on the Indianapolis, Peru & Chicago road to borrow no trouble about any other than the Wabash people getting full control of the property, he intimating that they still have the under hold on the portion of the road lying between Indianapolis and Peru.

Gus Hill's "World of Novelties" is undoubtedly one of the best, if not the very best, variety entertainments ever seen in the city, and will have big houses at the Temple to-morrow and Saturday evenings. The Cincinnati *Sun* says: "There is nothing approaching it on the stage this season, and the public evidently understands this, as the People's theater was crowded twice yesterday. Mlle. Anna, Mlle. Alberta and the Barretta Sisters do their very startling and graceful arial acts; Nat Haines and Will Videen keep the audience in a continuous roar for half an hour, and Dolly Foster and Lottie Gilson create havoc in the front rows. To name all the good things would be to reproduce the program. Matinee every day."

A telegram from New York detailing that the Pennsylvania railroad company has a surplus of $100,000,000, and is looking for a route to the Pacific coast, adds: "The Pennsylvania road was the first eastern road to secure an entrance into Chicago. They did it by the purchase of the Fort Wayne road. The Northwestern road is not feeling its way to the Pacific coast, so that the Pennsylvania road, in acquiring, it would practically be paving the way for another transcontinental line."

Fort Wayne boys are pushing to the front abroad. Yesterday THE SENTINEL noted the election of L. J. Bothell as superintendent of schools in a Minnesota county. Mr. Frank E. Bowen, son of Daniel Bowen, of this city, writes that he has been elected district attorney of Morton county, Dakota, by a handsome majority. Mr. Clarence Cromwell sends his friends the news of his election to the office of road supervisor of LeRoy county, Kansas, on the prohibition ticket. Mr. Cromwell was the only one elected on the ticket. So, also, did we note the other day the election of Mr. Ney, of this county, to the district judgeship at Dubuque, Iowa. It behooves the latest youth to go west.

$2 A DAY.

The Supreme Court Says a Township Trustee Is Only Entitled to That Sum.

The supreme court decided a few days ago that for services in the ordinary civil and school business of the township, the trustees shall be paid at the rate of $2 per day out of the township fund, and for services as overseer of the poor he shall be paid at the same rate out of the county treasury, and separate accounts must be kept of the amount of each class of service rendered from time to time. As applicable to both classes of cases, the section means an allowance of only $2 can be made for an actual day's service without reference to the manner in which the day may have been divided between the two classes of service, and consequently a township trustee is not entitled to receive out of any fund more than $2 for official services performed during any one day.
